

MECHANICAL CONTRACTORS' ASSOCIATION

TURKEY

HVAC Business and MTMD

Mechanical Contractors' Association (MTMD) is a sectoral organization which was established to gather the mechanical contractors under the same roof.

It has a very important role because the improvement of the construction sector strongly depends on the improvement of the contractors who are one of the main actors of the business, as well as the strong sectoral structure enables contractors to be more substantial and solid in terms of both engineering and business quality.

The main target of this association is to ensure that the contracting of mechanical installations in Turkey acquires the desired global competitive strength, fulfills its duties for the development of the national mechanical installation sector and improves its professional discipline. MTMD, creates a medium that will enable mechanical installation contractors to discuss and to collaborate in resolving their common problems, aims to be a driving force in the development of the sector, nationally and internationally, by ensuring that the internationally accepted prerogatives and responsibilities are abided by within recognized conditions of competition.

MTMD, which was established in 2007, has corporate members (each represented by 2 individuals) that are proud to have implemented prestigious projects in many different countries of the world, ranging from Europe to East Asia and Northern Russia to Africa, and continue with new projects in Turkey and all over the World. As MTMD, it is necessary for us to gain further experience, to prepare our infrastructure, to publicize our sector, to expand our membership, to discuss and resolve our common problems, to enforce internationally accepted standards and to re-evaluate our responsibilities. All of these are at the heart of the Mechanical Contractors' Association.

History

Structurally, MTMD is an organization composed of corporate bodies and stems from the bodily constitution of the Turkish Installation Engineers Association. During the Workshop of the Turkish Mechanical Engineers Association held in Abant in November 2006 entitled “The Current and Future of Mechanical Engineering”, the “TTMD Istanbul Contractors' Association” was entrusted with the task of establishing an association that would bring together installation contractors with the aim of troubleshooting and ensuring the healthy and sustainable development of the profession concerned with undertaking of mechanical installations.

The commission worked on the formation of an establishment that would gather legal entities involved in mechanical installation commitments under the same roof, prepared the regulations of the association, designated the Interim Administrative Council on April 12, 2007 and started its endeavors following the task distribution. The association legalized its status on June 12, 2007 with the participation of 17 founder companies. The Mechanical Contractors' Association (MTMD) held its 1st Ordinary General Meeting on December 1, 2007 at ITU (Istanbul Technical University) Social Facilities in Macka. The representatives of 22 companies were present at the meeting.

The first term Administrative Board of the Association at the 1st Ordinary General Meeting was composed of Ersin Gökbudak (Chairman), İsmet Mura (Assistant Chairman), Murşit Çelikkol (General Secretary), Recep Yıldız (Accountant), Hüseyin Erdem (Member), Mustafa Bilge (Member), and Tahir Yılmaz (Member). The alternate members of the Administrative Board were Tuncay Ayhan, Selim Evyapan, Faruk Özger, Hakan Bulgun and Cihan Akbulut. The full members of the Supervisory Board were Olgun Sonmez, Mustafa Arslançan, and İrfan Çelimli, with alternate members being Metin Kaya, İsmail Hakkı Gürler and Mehmet Gürhan.

The 2nd Ordinary General Meeting was held on May 30, 2009 and the members of the new Administrative and Supervisory Boards were elected. The committees designated by elections in which representatives of 33 companies took part were expected to serve their terms until 2011.

Board of Directors

Board of Directors (2019 – 2021)

Chairman

İbrahim BİNER (BİRLEŞİM MÜH. A.Ş.)

Vice Chairman

Barış ŞEVKETBEYOĞLU (K2 MEKANİK LTD. ŞTİ.)

General Secretary

Gürkan ARI (ARI JEOTERMAL LTD. ŞTİ.)

Accountant

Önder POLAT (DEMTA ISI VE END. TES. SAN. VE TİC. LTD. ŞTİ.)

Members

İrfan ÇELİMLİ (KİPAŞ MÜH. LTD. ŞTİ.)

Şeref GENÇER (MEKATRONİK İNŞAAT)

Murat SUIÇMEZ (ACAR MEKANİK LTD.)

Alternate Members

Ali HEPSAYAR (EKİNOKS KLİMA ISITMA SOĞUTMA SİST.)

Üzeyir ULUDAĞ (ARTES HAVUZCULUK ve ARITMA TES.)

Mehmet Ali BOZYEL (SÖNMEZ METAL END. VE TİC. A.Ş.)

Tayfun YÖNDEM (MET MÜH. İNŞ. VE MEK. ELEKT. TAAH. A.Ş.)

2019 – 2021 Supervisory Board

Members

Önder BOYALIKLI (D&T MÜHENDİSLİK)

Osman ARI (ÇEVİRİM TESİSAT LTD. ŞTİ.)

Maksut BALTACI (YİMAK MÜH. PROJE TAAH. SAN VE TİC. LTD. ŞTİ.)

Alternate Members

Bülent AYDOĞDU (MEPKAR İNŞ. MAKİNE TURİZM SAN. ve TİC. A.Ş.)

Ayşe Begüm TUNÇ (TUNÇ TESİSAT)

Gökhan TEPE (TEPE KLİMA DENİZCİLİK SAN. TİC. A.Ş.)

Commissions

Commissions

Publication Commission

Administers the organization, writing, editing and control of legal procedures, innovative technical applications and similar topics related to the trade basis and missions of the Mechanical Contractors' Association. It also supports e-magazine and e-bulletin process which are run by sub-committees.

Member Relations Committee

The committee attempts to find new members in accordance with the "Membership By-Laws" of the Mechanical Contractors' Association to ensure its growth and development. It tries to secure a close relationship between the members of the association and attempts to enhance internal communication among them in order to form a sound basis for an efficient mutual resolution of common problems. To this end, it organizes social activities that would bring members together and prepares internal bulletins.

Training Commission

The Mechanical Contractors' Association plans to put on its agenda training activities, web seminars and video series organized either personally or in cooperation with other professional organizations, which initially will be concerned with on-the-job training and later will be sector-specific by nature. The training committee is responsible for the organization of such activities.

Claim Commission

The commission aims to improve the claim management within the sector and organize meetings and gatherings with main contractors and business owners to maintain awareness about the universal standards such as FIDIC. It also aims to struggle with unfair contracts in the sector by holding seminars, trainings and panels.

Foreign Business Development Commission

This commission provides information about the potential projects and opportunities in other countries, to support the improvement of the foreign business.

Activities

MTMD's Recurring Activities

- ✎ Workshops related to a subject significant for the sector generally in May
- ✎ Sector gatherings bringing sector partners together at a nice cocktail prolonge at the end of each year
- ✎ Panels at least twice a year about a subject regarding the sectoral issues and agenda
- ✎ General members meetings twice a year
- ✎ General board meetings every two years

DW 144: SPECIFICATION FOR SHEET METAL DUCTWORK (by The BESA)

The Turkish translation of the revised version was published in 2018 by MTMD and shared with the sector

DW/144 is the Standard Specification for ductwork manufacture and installation and is aligned to all current BS, BS EN ISO and other standards and regulations. It defines specifications for sheet metal ductwork for low, medium and high pressure/velocity air systems and covers ductwork application, materials, classification and air leakage. It highlights the technical information to be provided by system designers to ductwork contractors and looks in detail at rectangular, circular, and flat oval ductwork. It also contains updated information on hangers and supports, smoke and fire dampers, external ductwork, internal duct linings, thermal insulation, air terminal units, with many clear reference tables.

DW 172: SPECIFICATION FOR KITCHEN VENTILATION SYSTEMS (by The BESA)

The Turkish translation of the revised version was published in 2018 by MTMD and shared with the sector

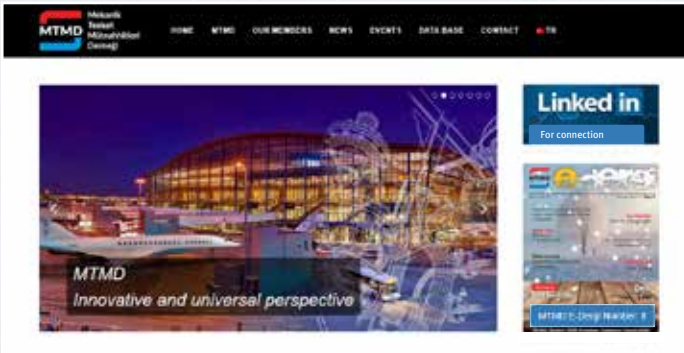

In 1999, the BESA Standard for Kitchen Ventilation Systems (DW/171) was introduced to the industry. In 2005 it was revised and rebadged as DW/172 Specification for Kitchen Ventilation Systems. Since theely acknowledged as the authoritative specification for kitchen ventilation design throughout the UK and many parts of the world.

Like any specification, however, it needs to be revised in the light of new thinking, technical advancements and innovation. This review process has now been completed by the BESA Ventilation Group and the 2018 version of DW/172 has been updated to reflect current legislations and the latest cooking techniques and design of catering equipment, by all sections of the catering industry.

MTMD E-MAGAZINE

Being published every 3 months' MTMD E-Magazine became one of the sectors most remarkable publications in the last years. It includes technical articles as well as sectoral news, life and general interests. It is distributed to nearly two thousand contact and also in social media platforms.
